

## WHITTLE CONSULTING

STRATEGIC MINE PLANNING SPECIALISTS

### **Whittle Consulting establishes Latin American base**

Whittle Consulting have appointed Videira Services, represented by Matthew Dorman, as Regional Manager for Latin America. Matthew, based in Santiago Chile, has specialised in “bankable” project oversight, technical advice and financial solutions for the mining & metals sector for over 20 years.

Gerald Whittle, CEO of Whittle Consulting, observed: *“We have completed a number of Enterprise Optimisation studies in South America for GoldFields, Barrick, Kinross and others. Having a base in the region will strengthen our operational capability and help us to develop stronger client relationships. We find that South American mining companies are progressive early adopters. They are on the journey to institutionalise the latest strategic mine planning methods and tools such as Enterprise Optimisation.”*

Whittle Consulting is known globally for increasing the NPV of any mining project or operation implementing its Enterprise Optimisation solution by 5% to 35% or considerably more. It is now represented in Australia, South Africa, USA and Chile.

Mr Dorman said: *“The Whittle Consulting approach is relevant to those mining companies who want to dramatically increase their cash generating capabilities – highly relevant in today’s economic climate. I can see huge potential for its application across Latin America”*

Gerald Whittle also delivers the Money Mining Seminars that set out the philosophy, tools and methods under-pinning Enterprise Optimisation. To date over 1200 mining professionals and executives have attended these seminars globally. Dates for 2013 include:

- Santiago, Chile 9th – 10th May, <http://www.cvent.com/d/0cqdbx> , and
- Belo Horizonte, Brazil 4th – 5th September, <http://www.cvent.com/d/bcqdyh>
